TQA/QWV 10/2012 Agreement with QX ltd

There is a contractual agreement between QWV/TQA and QX ltd for Indigo software. Other past agreements have been violated and regulatory compliance of the indigo has been put in jeopardy by counterfeit fraudulent illegal software activation of old non-compliance dysfunctional software. There has been approximately \$1,000,000 of lost payments to OX ltd for these criminal activations. If OX ltd would insist on payment or pursue police action against the software offenders it would cripple TQA/QWV. It is the hope of this agreement to help TQA/QWV and the indigo to succeed and prosper.

Points of Agreement

TQA/QWV and all operatives **agree to stop any further criminal activation.** As of this date the only proper legal compliant activation is the 2012 versions thru QX PayPal. Any other activation is illegal. TQA/QWV agrees to pursue criminal prosecution on all agents who activated the illegal software.
