

Here is an example of how frauds take advantage of the witless public.

This article claims science, but no science is shown. No scientific references, no description of what the product is or how it works. None of the doctors quoted could be found to comment. This is a sham article directed at false promises and duping the public.

Science is promised but not delivered.

You Buy the book and never find out what the product is.

How a Simple Formula Has Been Scientifically Proven to Cure Cancer and Virtually All Diseases

Why this one-minute therapy is being suppressed in the U.S. while more than 15,000 European doctors have been using it to heal millions of patients
by Madison Cavanaugh

What if you lived in a world where cancer -- or any other disease -- was no longer a threat to you? What if you never had to experience the horror of receiving a doctor's chilling diagnosis of a terrible disease -- or watch helplessly as someone you care about suffers from cancer or some other life-threatening disease -- with you not being able to do anything about it?

What would you be willing to give to ensure that you and your loved ones would never need to suffer -- or die -- from so-called "incurable" diseases that are actually curable?

If you're like most people, chances are, you or someone you know suffers from one or more of the following diseases: (Check all that apply.)

Cancer

AIDS

Heart Disease

Imagine never having to worry about getting the flu again -- or suffering from migraine headaches, gum disease, sinusitis, anemia, lupus, bronchitis -- and [any other disease](#), for that matter.

What if you no longer had to live in fear that one day you'll develop a disease that "runs in the family" or get diseases that naturally come from "getting older" or from bad lifestyle choices?

And what if you had a one-minute cure (which costs only 1½ cents a day to self-administer) that could get rid of [virtually any disease](#) in the event that you actually acquired one?

I know, I know. You're probably thinking, "That just can't be true! How could one simple remedy possibly cure all diseases? There's no such thing as a panacea." Well, you have every reason to be skeptical. I know I was.

But if you can suspend your disbelief for a moment -- you're about to learn the most amazing health secret anyone could ever possess. Your life -- or the life of your loved one -- could very well depend on this information.

In the next 5 minutes as you read this article in its entirety, you will discover ...

<ul style="list-style-type: none"> ▶ a remarkable, scientifically proven natural therapy that creates an environment within the body where disease <u>cannot</u> thrive. This therapy does <u>not</u> cure disease but enables the body to cure itself of disease. ▶ why over 6,100 articles in European scientific literature have attested to the effectiveness of this simple therapy in not only killing diseased cells but also simultaneously revitalizing and rejuvenating healthy cells, thereby creating vibrant energy and well-being. ▶ how this <u>safe</u>, inexpensive and powerful healing modality has been administered by an estimated 15,000 European doctors, naturopaths and homeopaths to more than 10 million patients in the past 70 years to successfully treat practically every known disease. 	
--	--

If you or someone you care about suffers from, or are at risk of acquiring, any disease, this will be the most important article you'll ever read in your life.

You'll discover why this simple therapy has the potential to save the lives of millions of people; how it can dramatically improve the quality of our lives by eradicating disease; and how it could potentially solve the health care crisis in this country.

You'll also find out why information about this groundbreaking therapy has been deliberately kept secret from the American public -- and why you must grab the earliest opportunity to **learn about this one-minute**

therapy before this information is banned by enterprises, cartels and agencies whose financial interests are threatened by it.

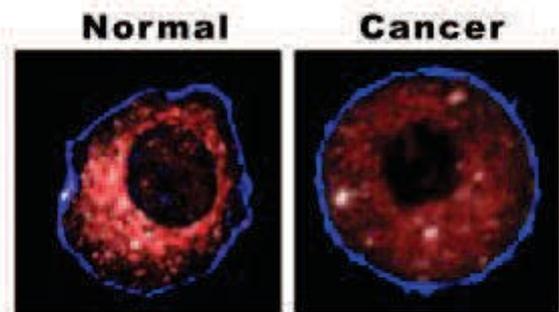

Before we get started, here's why thousands of physicians, researchers and health practitioners who administer this simple therapy are calling it the . . .

"World's Greatest Healing Miracle of All Time"

Two-time Nobel Prize-winning doctor, Otto Warburg, shocked the world when he revealed that most disease is caused by insufficient levels of oxygen in the body. In fact, his studies showed that if you deprive a cell 35% of its required levels of oxygen for 48 hours, the cell is likely to become cancerous.

That's why cancer is so widespread in our modern society -- because most people suffer from oxygen deprivation. What most people don't know is that lack of oxygen is not only the underlying cause of cancer but is also the cause of most diseases -- from AIDS to yeast infections.

Curing cancer and other diseases, then, is just a matter of getting rid of the cause of the disease. It's as simple as that! But it's human nature to complicate the solution, and turn the simple into something complex.

Current medical research, for instance, is focused on the wrong causes of disease. Some claim that viruses, microbes, germs or harmful bacteria are the cause of cancer and other diseases. Others say it's the toxins in the food we eat, the air we breathe and the substances we consume. And still others say it's our genes or stress that causes us to acquire disease.

While all of these factors do characterize most diseases, or might be precursors or by-products of disease, they do not CAUSE disease. Rather, they bring about a condition in the body (oxygen deficiency) that, in turn, causes disease.

Clearly, the primary physical cause of all diseases is linked in one way or another to oxygen deficiency -- and when the human body is supplied with abundant amounts of oxygen, all cancer cells, viruses, harmful bacteria, toxins, pathogens and disease microorganisms are killed because they cannot survive in a high-oxygen environment.

"One out of every 3 adults in America already has cancer -- but most of them don't know it yet because the cancer is undiagnosed and undetected. According to the American Cancer Society, there's a 41% probability that an individual, male or female, will develop cancer in his or her lifetime (or die from it). Additionally, every human being has cancer cells existing in the body which are just seeking a low-oxygen environment where they can multiply into the full-blown disease ." -- Madison Cavanaugh, **The One Minute Cure: The Secret to Healing Virtually All Diseases** [Click here to [download 1st chapter](#)]

Since an oxygen-rich body is uninhabitable by disease, then the solution for eradicating disease seems simple enough, doesn't it? Just supply the body with an abundant supply of oxygen, right?

Wrong! It's actually not as simple as that. Here's why:

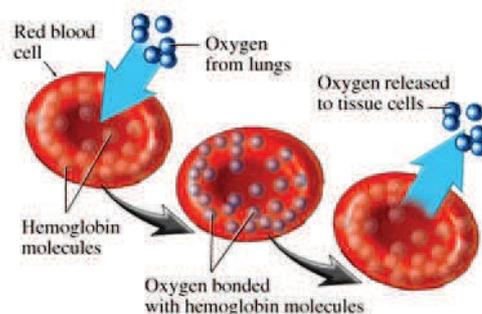

Oxygen Cannot Cure Disease Unless It's Delivered to the Cells and Tissues of the Body

Most humans are NOT able to get proper amounts of oxygen in their cells and tissues -- due partly to poor air quality, poor breathing habits and oxygen-depleting activities. More importantly, the human body is NOT always able to deliver oxygen to the cells and tissues.

In order for oxygen to eradicate disease, it must be delivered not just to the lungs -- and not just to the bloodstream -- but to the cells and tissues of the body. That's why other oxygen-based therapies -- such as oxygenated water, oxygen-rich foods or supplements, or treatments that release oxygen into the bloodstream - - are not always effective in treating disease. While they may supply the body with oxygen, they don't always have an efficient mechanism for breaking the oxygen free from the hemoglobin molecule, which means the oxygen is not delivered to the cells and tissues. Such oxygen-based therapies, therefore, are seldom effective in preventing and curing disease.

The simple therapy you're about to learn, which thousands of people all over the world are calling "the world's greatest healing miracle of all time," is the only one that uses a natural oxygenating substance which ...

...stimulates the movement of oxygen atoms from the bloodstream to the cells to a dramatically greater degree than is usually reached by other means.

It does this by increasing oxygen and hemoglobin dissociation, thereby maximizing the delivery of oxygen from the blood to the cells, according to a prominent doctor best known for treating AIDS patients with a holistic protocol which includes oxygen therapy (see page 97 of [The One-Minute Cure](#)).

People Saved from the Brink of Death by the One-Minute Cure

This is an excerpt from a real-life case study.
Names have been changed for privacy reasons.

Dr. Lance Moriarty, the Director of a medical clinic in Nairobi, Kenya (where **1 out of every 8 people is infected with AIDS or HIV**), reported that "Patients have literally been dragged back from the brink of death" from the use of the natural oxygenating substance revealed in [The One-Minute Cure](#). When the substance was administered to 50 patients who were suffering from AIDS or the HIV virus, 30 of them went into immediate remission -- and the rest of the patients reported an increase in stamina and a sense of well-being they never had before. This success rate is unheard of in the medical and pharmaceutical world where AIDS is still considered incurable! Dr. Moriarty went on to say that whenever the one-minute cure is administered throughout the community, "People come back to life! It blows my mind!"

The Day I Stumbled Upon the One-Minute Cure for Healing Virtually All Diseases

I'm Madison Cavanaugh, and I've been both an aficionado and avid researcher of natural and wholistic approaches to health for the last 30 years -- and have also written articles about them as a contributing editor for natural health magazines and publications. As such, I've witnessed an endless parade of "natural" remedies and therapies go by -- some having merit and others providing little or no health benefit at all.

In 1999, my father died of colon cancer after a long, hard battle that was exceedingly painful for him to bear (and for us, his family, to witness). My grandmother also died of brain cancer not long before that. We saw her writhe in agony during the last few months of her life, the doctors unable to do anything -- even to ease her pain.

Over the last 10 years, I've been saddened by the death of 2 aunts, an uncle, 3 cousins, as well as a close friend who have all died of cancer. At least a dozen more friends and acquaintances have also been diagnosed with cancer in recent years. But the ones that hit closest to home were ...

...my sister, who was stricken with cervical cancer a few years ago -- and my mother, who was diagnosed with breast cancer in 2006. Both of them are presently in remission because their respective cancers were surgically removed. But as with most cancer survivors in remission, there's always a constant fear that cancer will return with a vengeance.

When it dawned on me that **cancer had struck 3 members of my immediate family** -- it was a terrifying realization.

It was then that I began to search desperately for a cancer cure amidst the overwhelming array of so-called "miracle cures" available both online and offline. Little did I know that I was about to stumble upon something much more than I could have ever expected.

I was reading something about oxygen therapy one day when I came across something entirely by accident -- something that was positively astounding.

Since I had known about oxygen therapy for years, and had even written articles about it on a few occasions, I was tempted to ignore the information and think (arrogantly) that I knew all about it already. I'm glad that, instead, I chose to take a closer look.

I remember when I first heard about this aspect of oxygen therapy involving a little-known oxygenating substance, I was awestruck by the compelling reports that it has **cured almost every disease known to man**, including "The Big 3" -- AIDS, cancer and heart disease. Here's a partial list: **t t t t t**

Diseases 1 Ailments

AIDS	Gingivitis Gum
Acne	Disease
Allergies	Headaches
Altitude Sickness	Hepatitis
Alzheimer's Disease	Herpes
Anemia	Herpes Simplex
Angina	Herpes Zoster

Diabetic Retinopathy	Throat Temporal
Digestion Problems	Arteritis
Eczema	Trichomoniasis
Emphysema	Ulcers
Epstein-Barr Infection	Vascular Diseases
Food allergies	Vascular headaches
Fungal infections	Viral infections
Fungus	Warts
Gangrene	Yeast infection

I Was Extremely Skeptical ... At First

Those who know me know that I'm not one who readily buys into "miracle cures" -- nor am I easily swayed by other people's opinions or anecdotal reports. I've been a health researcher too long to get "sold" on bogus "snake oil" products masquerading as health breakthroughs.

What's more, I've never believed that there's such a thing as a cure-all or panacea -- and I'm also extremely wary of exaggerated health claims provided by individuals or enterprises that stand to make huge profits from the proliferation of those claims.

But the more I expanded my research into this one-minute cure which involves a natural oxygenating substance, the more I was dumbfounded by the mountains of evidence showing that this therapy has been used in various parts of the world by thousands of health practitioners to heal cancer and every conceivable disease.

It was also encouraging to discover that greedy commercial enterprises are not able to exploit this one-minute cure because the natural substance is dirt cheap -- just 1-1/2 cents a day to administer -- and neither can it be patented by profiteers.

My skepticism turned to conviction when I realized that this one-minute cure is . . .

...the only healing therapy that finally eliminates the REAL cause of disease!

That's why it has such a far-reaching and broad spectrum effectiveness in curing ALL diseases. And just to set things straight, it's never a substance, a pill or a remedy that cures someone of any disease. It's the human body that cures itself. But ONLY when it is supplied with what it needs (sufficient oxygen) to do what it was designed to do -- that is, maintain health and keep diseases away.

I decided to administer the one-minute therapy on myself, and was amazed that within 2 weeks, it enabled my body to eradicate a chronic, throat inflammation I'd had for 6 months, and which I feared might one day become cancerous. My husband used the therapy as well with spectacular results. His life-long lymphatic condition, characterized by excessive mucous discharge and breathing difficulties, was completely healed in a matter of days -- despite the fact that none of the countless things he had tried before worked. Colds and flu have also become non-existent in our household since we started using the one-minute cure. And another unexpected benefit I got was that my energy levels increased so significantly that I've been able to easily work 12- to 14-hour days whenever I had to -- with lots of energy to spare!

That's when my heart pounded with excitement, realizing that this may be the closest thing to a panacea that I've ever encountered. I began wondering why I hadn't encountered information about this therapy before, and more importantly, why the whole world didn't already know about this. I soon realized why.

CAT Scan Proves That Cancer Disappeared!

This is a real-life case study reported by a medical doctor who wishes to remain anonymous. The name of the patient has been changed for privacy reasons.

A 60-year-old man named David Palmer collapsed in his home one day and was rushed to the hospital. After undergoing an endoscopic examination and CAT scan, his doctor told him he had a cancerous mass the size of a grapefruit in his stomach. It was a large-celled lymphoma. A few days after his diagnosis, David

learned about the simple therapy revealed in [The One-Minute Cure](#), and began doing the therapy 3 times a week. Another CAT scan was done 7 weeks after he was first diagnosed with cancer -- and his doctor was amazed because the **tumor had completely disappeared!** Four months later, a repeat CAT scan was done, and again, there was no evidence that there was ever any cancer in David's stomach.

or [Frequently Asked Questions](#).

The Hidden Secret They Don't Want You to Know

In 1986 and 1987, two doctors from Stuttgart and Munich, Germany published case histories of dozens of AIDS patients whom they had cured with a simple therapy involving oxygenation of the body. The patients, who were all in the late-stage of AIDS, reversed their death sentences, were restored to health and lived normal lives again.

A much simpler version of the above-mentioned therapy has been in use outside the United States since the early 1960s. It is a one-minute, self-administered version of the therapy which has since been prescribed by thousands of European doctors, naturopaths and homeopaths (from Germany, Italy, Austria and Russia), as well as health practitioners in Cuba and Mexico. They've used it to cure practically every known disease. [See table above to see a partial list of diseases.]

As far back as 170 years ago, during the reign of Queen Victoria, the people of India (which was then a colony of England) were cured of a variety of illnesses -- from minor ones like colds and flu to serious ones like cholera and malaria -- with this one-minute, self-administered therapy.

This is the simplest, most effective and most inexpensive therapy for providing the body with health-giving oxygen, and maximizing the delivery of oxygen from the bloodstream to the cells. It is also the **secret** that both the American pharmaceutical industry and the medical establishment don't want you to know.

That's because this simple cure for virtually all diseases threatens the livelihood and the trillion-dollar earnings of the pharmaceutical and health care industries -- not to mention the medical centers and physicians that make a great living from providing expensive drugs, complex medical procedures and long hospital stays.

Even though **over 6,100 articles attesting to the success of this simple therapy** have been published in European scientific literature, this information has been aggressively suppressed in the U.S. via an elaborate scheme of media manipulation, control, infiltration and economic incentives that are all designed to systematically deceive the public into thinking that pharmaceutical drugs are the only solution to disease!

American doctors who employ this therapy to cure a wide variety of "incurable" and life-threatening diseases, or endorse the therapy in any way, come under heavy attack by the medical establishment and are threatened with hefty fines, the revocation of their medical licenses -- and sometimes even face federal prosecution by the FDA.

Remarkable Recovery from Emphysema

This is a real-life case study. The names of both the doctor and the patient have been changed for privacy reasons.

Rick Dorrington was brought to Dr. Michael Erwin's clinic with a terminal case of emphysema. He was extremely thin, wheelchair-bound, and had a portable oxygen tank with him at all times because he had so much trouble breathing. Dr. Erwin began administering the natural oxygenating substance revealed in [The One-Minute Cure](#) to Rick. After only 4 treatments, Rick no longer had to use his wheelchair, and he discarded the oxygen tank altogether. He was also able to sleep flat on his bed without having to be propped up because of breathing difficulties -- and his appetite returned, accompanied by a healthy weight gain. This remarkable recovery is unheard of among emphysema patients!

This Book Could Be Banned -- It Reveals Too Much!

The more I shared the simple therapy with other people and witnessed the life-changing results they got from using it, the more convinced I became that it would be a disservice to humanity to keep this vital information available only to the limited number of people who stumbled upon it by accident (like I did). That's why I sat down and wrote [The One-Minute Cure: The Secret to Healing Virtually All Diseases](#).

WARNING: The self-administered therapy which is detailed in the book represents the biggest threat to the revenues of the pharmaceutical and medical industries. It's a bigger threat than all the alternative healing therapies, nutritional supplements, natural foods and products combined.

That's why you must learn the one-minute therapy as soon as possible -- and make sure the people you care about also learn it -- before Big Pharma gets wind of it and forces this book out of circulation.

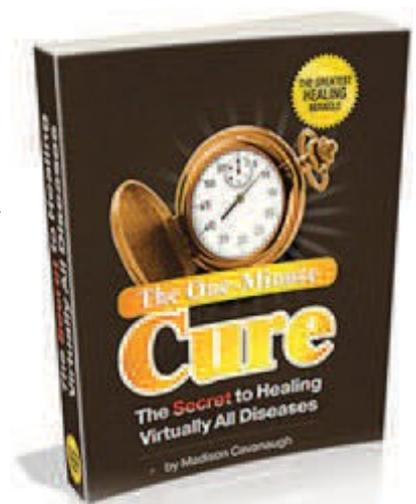

If you think this can't possibly happen, think again. The pharmaceutical industry has assembled a pharma-cartel consisting of an army of lobbyists that influence not only the entire medical industry, but also federal agencies and the U.S. Congress.

The pharma-cartel is so powerful that it has been able to influence the Food & Drug Administration (FDA) to seize, destroy or prevent the publication of books that threaten the pharmaceutical industry's profits.

For instance, the FDA actually ordered the burning of books about stevia, a natural herbal sweetener which has been safely used for hundreds of years; does not alter blood sugar levels; and is dirt cheap. Why? Simply because stevia threatened the profits of the pharmaceutical company that manufactured aspartame (artificial sweetener).

You can just imagine how much more vigilant they would be against [The One-Minute Cure](#), which threatens the earnings of the entire industry because it could potentially make most drugs and medical treatments unnecessary!

The pharma-cartel is so powerful that it can even influence Congressional legislation to protect its profits and outlaw anything that threatens its continued profitability.

Case in Point: A recent investigative report aired on the popular CBS program, Sixty Minutes, revealed that "Congressmen are outnumbered 2 to 1 by lobbyists for the pharmaceutical industry that spends roughly \$100 million a year in campaign contributions and lobbying expenses to protect its profits." Because of this, the pharmaceutical lobby almost never loses a political battle that affects its bottom line. In fact, there have been over 1,500 bills placed in front of the House of Representatives over the last 8 years dealing with pharmaceutical issues – and the drug companies, almost without exception, have gotten what they wanted." [Excerpt from [The One-Minute Cure: The Secret to Healing Virtually All Diseases](#), page 16]

Mark my word -- they will do everything in their power to suppress the dissemination of the information revealed in [The One-Minute Cure: The Secret to Healing Virtually All Diseases](#). In fact, right at this very moment, a PR campaign is already being waged to discredit and spread malicious untruths about the natural oxygenating substance, which is the main ingredient of this one-minute cure -- even though the substance has been given the GRAS designation -- Generally Recognized as Safe -- by the FDA.

A famous U.S. doctor, who has written 17 nutrition-based books, some of them New York Times bestsellers (see page 105), was threatened with a revocation of his medical license when he attempted to prescribe this therapy in his medical practice! Many medical clinics that have offered the therapy to patients have also been shut down -- and health practitioners have been imprisoned or threatened with jail time for the same reason.

So if you delay, don't be surprised if you return to this website at a later date and find that the book is no longer available. If you don't get it today, there's no telling if you'll get another opportunity to do so -- even when you decide later that you want the book.

"Most dramatic recovery from multiple sclerosis in 30 years of medical practice"

This is a real-life medical case reported by a doctor who wishes to remain anonymous. The name of the patient has been changed for privacy reasons.

A patient named Daniel Keller came to Dr. Frank McCarthy's medical clinic unable to walk. He had been diagnosed with multiple sclerosis 14 years earlier, and his symptoms, which had become severe, included slurred speech, blurred vision, loss of libido and complete loss of mobility of his right leg, which meant he was dependent on a wheelchair for mobility. Daniel had previously seen many physicians and had spent tens of thousands of dollars on medical treatments, but he experienced no improvement whatsoever. He was told to expect his condition to only get worse over time. Dr. McCarthy decided to administer the natural oxygenating substance revealed in [The One-Minute Cure](#). After 20 treatments given over a period of only 8 weeks, Daniel was able to not only walk again, but also drive his car -- and the other effects of multiple sclerosis also resolved. Dr. Keller declares that in almost 30 years of practice, this was one of "the most outstanding cases" of recovery from multiple sclerosis he had ever encountered.

A Preview of What You'll See Inside...

When you preview the book risk-free, here are just a few of the closely guarded secrets you'll discover:

- ▶ 7 major reasons why this simple therapy is being called "the world's greatest healing miracle of all time" -- and why it could potentially render most pharmaceutical drugs and medical treatments obsolete -- [see pages 33-36](#)
- ▶ How you can self-administer this simple therapy at home in 1 minute -- this includes the exact protocol and the sources where you can obtain the natural oxygenating substance which is the cornerstone of this therapy. (Note: This natural substance has been given the GRAS designation - Generally Recognized As Safe -- by the FDA, and costs only 1½ cents a day to administer!) -- [see pages 75-79](#)
- ▶ Why cancerous tumors shrink in the presence of this natural substance -- and inhibits the growth of other tumors and disease tissues as well. Featured case study: A scientific experiment which showed how **tumors disappeared within 15 to 60 days** after this substance was administered in drinking water. -- [see page 61](#)
- ▶ The promising breakthroughs currently being made in the use of this substance in the prevention, treatment and cure of Alzheimer's Disease and dementia -- [see page 95](#)
- ▶ Why a prominent doctor who once taught gum surgery thinks this simple therapy may make all periodontal surgery totally unnecessary -- [see page 66](#)
- ▶ How alcoholics can use this therapy to lose their craving for alcohol -- and how, with constant use, the desire for alcohol never returns. -- [see page 67](#)
- ▶ Asthma medications (consisting of inhaled beta-agonists) only relax airway muscles and help the asthma sufferer to breathe easier -- but they do not cure asthma nor reduce the inflammation in the airways. Discover the first and only known natural remedy that actually causes the body to spontaneously get rid of asthma. -- [see page 11](#)
- ▶ The easy way to make sure your body's cells are open and ready to receive and utilize the oxygen from the bloodstream. This is crucial because disease prevention and eradication depends on the cells being infused with oxygen. -- [see page 108-110](#)
- ▶ How the ability of this natural substance to revitalize healthy cells caused a world-famous heart surgeon to use it to **slow down the aging process**. Also featured are case studies showing how the therapy enabled older users to **reverse the detrimental effects of aging**, regain energy and mobility -- and even turn gray hair back to its original color -- [see page 91](#)
- ▶ Did you know ... that expensive interferon drugs owe their efficacy to raising the body's oxygen level? Find out how this natural substance employs the same mechanism of action as interferon -- without producing side effects -- and why it is now being used as an inexpensive alternative to interferon for the treatment of Multiple Sclerosis -- [see page 66](#)

▶ Good news for arthritis sufferers! As far back as 1914, Dr. Edward C. Rosenow (Mayo Clinic) demonstrated that this natural oxygenating substance kills the oxygen-hating organisms that cause arthritis (streptococcus viridans).

▶ Every person suffers from "slight brain damage" as a result of gradual oxygen deprivation -- and this causes inexplicable illnesses such as depression, lack of energy, irritability, impaired judgment and mental function. Learn how this therapy can reverse everyday brain damage, boost energy, improve memory, alertness and concentration -- and even raise your IQ -- [see page 68-69](#)

▶ Never get the flu again! Bacteria, pathogens, disease microorganisms and viruses (including influenza) are destroyed on contact with this natural substance -- without the side effects of drugs or antibiotics. -- [see page 69](#)

▶ How this simple therapy causes your body to cure itself of cancer -- even in cases when the disease wasn't caught early, and even if it's a late-stage cancer -- [see page 44](#)

▶ Keep your pets healthy, too -- Administering this natural oxygenating substance in the drinking water of your dog, cat, horse or other pets cures everything from heartworms to parasites to feline leukemia -- without the use of pet medications. It has even been given to race horses to improve endurance and shorten recovery times after races. -- [see page 93](#)

▶ How this therapy has become the choice therapy for treating **drastic cases of emphysema** -- many patients have reported that the therapy has improved their breathing so much that they no longer need oxygen tanks and wheelchairs -- [see page 79](#)

▶ and much, much more.

"She should already be dead ... if it weren't for the one-minute cure."

This is a real-life case with medical records to prove it. The name of the patient has been changed for privacy reasons.

Carla Trueman had the worst possible case of lupus, with severe complications including inflammation and swelling of the brain, open sores and nephritis which almost led to kidney failure. Since she was part of a medical study being conducted at a university, the university specialist prescribed a drug called Cytoxan for treatment, but because of the many possible side effects of the drug, she refused to take it. Instead, she began self-administering the natural oxygenating substance revealed in [The One-Minute Cure](#) everyday. Her case was later presented at the medical school, and when they examined her and found no sign of lupus, they questioned whether she ever had lupus at all.

Every Disease Responds Well to This Simple Therapy

I'm sure you've heard the saying, "If it sounds too good to be true, it probably is." I thought the same way because it was hard to believe, at first, that a single substance could have such far-reaching and [broad spectrum effectiveness in curing all diseases](#). But my skepticism melted away when I saw the undeniable evidence consisting of countless people that were healed of practically every disease.

Although we have thousands of real-life testimonials from real people who have successfully reversed a wide variety of diseases via the one-minute cure, the FDA and FTC prohibit us from posting them on this website because as far as they're concerned, "only a drug can legally make the claim of treating, curing or preventing disease."

In my opinion, this is all part of Big Pharma's stranglehold on free information about your health, and their aggressive attempts to hide natural healing therapies from you (so they can enrich themselves from your continuing pain and suffering).

But the results speak for themselves -- there is an [extensive number of diseases](#) that have responded well to (and have been reversed by) the simple natural therapy described in the book. Alternative health practitioners, as well as researchers and doctors, have yet to find a disease that does not respond well to this therapy. And best of all, when used properly, there are no known risks.

Unlike other therapies or health products that employ the use of oxygen for therapeutic purposes, this therapy uses a safe and natural oxygenating substance that effectively delivers the oxygen atoms from the bloodstream to the cells and tissues. It does this by increasing oxygen and hemoglobin disassociation, thereby maximizing the delivery of oxygen from the blood to the cells, according to a prominent doctor best known for treating AIDS patients with a holistic protocol which includes oxygen therapy ([see page 97](#)).

The simple therapy described in [The One-Minute Cure: The Secret to Healing Virtually All Diseases](#), which you can self-administer at home in less than 1 minute, instantly floods your cells and tissues with oxygen, thereby creating an environment in your body that is uninhabitable by disease. That's because disease microorganisms, viruses, microbes and pathogens are anaerobic, which means they seek out and thrive in low-oxygen environments -- and die in high-oxygen environments.

Your healthy cells, on the other hand, are aerobic, which means that they not only thrive but become rejuvenated and revitalized in the presence of oxygen, thereby promoting vibrant health.

"The definitive answer to disease"

"I've never been this impressed with any health breakthrough that has surfaced in the natural health arena in the last few decades. [The One-Minute Cure](#), which is validated by volumes of irrefutable scientific evidence, may quite possibly be the panacea that we've all been looking for. I believe it's the definitive answer to the cause, prevention and cure of a great many diseases that plague the world today." -- Mark Chancellor, Medical Journalist, Los Angeles, California

"This book is worth far more than its weight in gold!"

"I watched family members (mom and brother) die of cancer in recent years. No matter how well-meaning the doctors were, they couldn't help because all they were taught in med school was to prescribe surgery, chemotherapy or radiation, none of which cured my mom and brother but maybe hastened their deaths. [The One-Minute Cure](#) has really opened my eyes to the hidden agenda of Big Pharma that wants to keep us sick because they earn more profits from our ongoing diseases.

"But the promise of a one-minute cure ... although I wanted to believe it with all my heart, seemed too good to be true. I nearly passed up reading this book, but I didn't want to wait till my husband, children or loved ones die of cancer, only to realize too late that the one-minute cure could've saved their lives. So I read the book from cover to cover and discovered that it's worth far more than its weight in gold! My family will be using the one-minute cure for the rest of our lives." -- Lucille Wilkinson, Ann Arbor, Michigan

"Every household must have this book"

"I was very skeptical and actually thought this one-minute cure was nothing but a scam when I watched The Cancer Cure video on YouTube. I bought the book anyway because I wanted to expose the book's author as just another con artist preying on people's fear of disease. But when I read the book, it radically changed my belief as to how cancer, heart disease, AIDS and other diseases come about, and are cured. Cavanaugh offers credible arguments, backed by solid evidence, that this one-minute cure is indeed the world's answer to cancer. Every household must have this book." -- Orson Dillard, Boston, Massachusetts

"This book is a gift to mankind!"

"I almost clicked away from [The One-Minute Cure](#) website, almost jumping to the conclusion that it was just another commercial enterprise wanting to make a fast buck from desperate people. But I was too curious to know what the heck this 'natural oxygenating substance' was that they were talking about. So I ordered the book, and I'm so very glad I did. Sincere thanks to the author for bringing this important information to so many of us who are in such great need of it. It's truly a gift to mankind!" -- Tamara Whitley, Miami, Florida

"Wow! is the only way to describe this book"

"I read The One-Minute Cure not really expecting it to tell me anything I didn't already know. I'm not only a long-time enthusiast of naturopathic medicine and alternative health, but a Reiki healer as well. When I started reading the book, I initially thought the oxygen therapy it was talking about was something I already knew about, but as I continued reading, I discovered the profound impact that the information in the book would have in my life, as well as the lives of countless others. All I could say was "Wow!" The greatest value I received from this book is that the author successfully compiled all the relevant research regarding the therapeutic use of the natural oxygenating substance and put it into one slim volume that can be understood, appreciated and used by the general population, not just health aficionados and people who are familiar with alternative healing modalities. Cavanaugh also exposes the hidden agenda of not only the pharmaceutical and medical industries, but the natural health industry as well. The money you save simply by becoming aware of the exaggerated claims (and dubious benefits) of many nutraceuticals or

supplements is worth ten times the price of this book. As someone who considers himself knowledgeable about natural health therapies, products and services, I highly recommend this outstanding book." -- Bruce Lloyd, New York City

"I experienced an EPIPHANY after reading this wonderful, wonderful book!"

"I have been a user of alternative medicine and self-healing principles and modalities for years, even selling Aerobic Oxygen® back in the 70's. When I came across the website of [The One-Minute Cure](#), I suspected that this 'secret to healing virtually all diseases' was probably oxygen or an alkaline pH, but the answer was so well hidden that curiosity made me order the book. I am SO THANKFUL I did! Back in 1986, I already used the natural oxygenating substance that the book talks about ...and it didn't work! It turns out that, yes, it does work...but at that time, I only had HALF the information! This book gave me that missing knowledge and so much more.

"After I finished reading this book, I sat contemplating the amazing wisdom contained in the book, as well as the skill of the author in writing it. Then, I had an **epiphany!** I realized that with this book, I already HAVE the cure for "everything!" I've been spreading the word to everyone and telling them that [The One-Minute Cure](#) is a necessary addition to their health library. It's a wonderful, wonderful book that will help people 'wake up' in many ways." -- Libby Lervik, Port Hardy, British Columbia

[The above is an abbreviated version of the review. Click here to [read the entire review.](#)]

"Your book has had a PROFOUND impact on me"

"As soon as I've had the e-book downloaded I've begun to read it and haven't been able to stop until I have finished it! The first thing that has come to my mind is **"EVERYONE OUGHT TO READ THIS BOOK!"** I feel very fortunate because I can read English, and that allows me to have access to a lot of information which is not available to those people who cannot. I don't know if you have already thought about translating the book into Spanish or if it is being translated now. Your book has really had a profound impact on me. So, my proposal is: If you agree, I'd translate the book for free, that is, with no costs for you. There is absolutely nothing tricky in my offer. I'm just a mother caring for her two daughters and for the world we are leaving to children. Things must change, and they will change undoubtedly... and it is people like you and many others who are contributing to it." -- D. Garcia, Guardiola de Font Rubi, Spain

[Note: For information regarding the Spanish and other foreign language editions of The One-Minute Cure, send an e-mail to 1minutecure@gmail.com.]

"...the spearhead of a health revolution!"

"Madison, I read the E-book straight through and have already emailed friends about it. Your work comes at a good time, when the sales of all vitamins and minerals are about to be banned in the EU, in all but useless doses [1st Jan 2010]. We are living in a very wicked world. I see your book as the spearhead of a health revolution, which I have been preaching to deaf ears for 15 years or more." -- John I., Marsascala, Malta

"One of the best books on health I read in 40 years"

"Wow, this was one of the best books on health I read in my 40 years of existence. It was very thorough, well laid out and something that I will share with all my friends and associates. I started using your recommended dosage right away and you are right, I feel great and I know and feel that my body will be disease-free. Thanks again for being part of the solution to making our world a better and safer place for all man and woman kind." -- Jacques A., Atlanta, Georgia

"The One Minute Cure is a GREAT book -- the best I've ever read on healing"

-- D. Morrison, North Carolina, USA

Will This Therapy Work for You?

As mentioned earlier, over 6,100 articles in scientific literature have attested to the success of the simple therapy described in [The One-Minute Cure: The Secret to Healing Virtually All Diseases](#). An additional 50 to 100 scientific articles are published each month about the biological and therapeutic effects of the natural substance around which this therapy is based.

This natural oxygenating substance has been used for over 170 years to successfully treat countless diseases -- even those that have been called incurable -- without the adverse effects that often accompany the use of pharmaceutical drugs.

There is solid science behind the effectiveness of this therapy -- and now, you have the opportunity to prove its merits to yourself with absolutely no risk.

Preview the book risk-free today. Note: Since only a doctor is at liberty to dispense medical advice, I must issue the disclaimer that I'm not making an attempt to prescribe any medical treatment -- and the information contained in the book is not intended to replace a one-on-one relationship with a doctor or qualified health practitioner.

What I can guarantee is this: If the information in [The One-Minute Cure: The Secret to Healing Virtually All Diseases](#) isn't the most astounding health information you've ever encountered, or if you're not satisfied with your purchase for any reason, you lose absolutely nothing. You can request a refund within 60 days of your purchase, and you'll receive it cheerfully -- no questions asked. But I'm betting you won't want to be without this vital information -- and you'll probably even want to give a copy to everyone you care about. [Click here to see [quantity discounts](#).]

For **less than the price of a single flu shot** at a doctor's office (which costs \$35 to \$45 these days), you and your family could be protected not only from the flu, but from virtually all diseases!

Time-Sensitive Free Gift: When you purchase the book on or before **midnight tonight**, Thursday, February 26, 2009, you will also receive the following:

A Bonus Report titled "**How to Stop a Heart Attack in 30 Seconds.**" This report contains the secret to stopping a heart attack -- even when it is already in progress -- and prevent you and your family from experiencing one in the first place!

- Learn why a doctor stated that in 35 years of medical practice, he has never had a patient die of a heart attack because whenever he administered this home remedy, the patient would return to normal within a few minutes -- and would be up and around immediately. [No, it's not aspirin.]
- Read the amazing story of 2 heart attack victims, who were already pronounced dead from a heart attack -- but after being administered this simple remedy, their hearts started beating again and they were "brought back to life."
- Every 26 seconds, someone in the United States suffers a heart attack -- and every minute someone dies of a heart attack. Every family must read this report and have this simple remedy handy as part of their emergency kit.

But please understand that I can only guarantee you'll get this Bonus Report if you order [The One-Minute Cure](#) before midnight tonight.

"This safe, readily available and dirt cheap therapy works!"

A U.S. doctor, who's one of the world's leading authorities on natural healing (see page 66 of [The One-Minute Cure](#)) praised the health benefits of this therapy, stating, "I'll admit I was skeptical when I first learned about this therapy. This healthy dose of skepticism, however, led to a great deal of investigation, clinical work and experimentation. I'm now convinced it is safe, readily available and dirt cheap. And best of all, it works!"

Disease Doesn't Have to Scare You Any More

No one in this country -- or the world -- has remained untouched by disease. Some have suffered from disease themselves, and practically every person on earth has a loved one who is (or has been) a victim of a devastating disease -- or even died from it. Diseases as a whole have reached epidemic

proportions:

- an estimated 39.5 million people are living with Human Immunodeficiency Virus (HIV) all over the world;
- Americans, whether male or female, have a 41% probability of developing cancer or dying from it;
- approximately 4 million Americans suffer from Alzheimer's Disease; 360,000 people develop the disease every year; and this figure is expected to quadruple in the coming years;
- Every 34 seconds, a person in the U.S. dies from heart disease -- and more than 2,500 Americans die from heart disease every single day;
- Diabetes and pre-diabetes combined strikes 27% of Americans (approximately 81 million people);
- the "incurable" disease of alcoholism afflicts 18% of the American adult population;
- and that's just the tip of the iceberg.

When you put all the sobering disease statistics together, you begin to realize that there's no escaping disease. Whatever you do, there's a strong probability that you'll acquire one or more diseases in your lifetime (if you haven't already) -- and run the risk of even dying from it.

The **good news** is that you and your loved ones no longer have to be the victim of disease. You no longer have to fear that disease will randomly invade your body and cause you to suffer or become deathly ill.

You no longer need to be terrified that your poor health habits or the unhealthy lifestyle you've had in the past will come back to haunt you in the form of some awful disease. What's more, there's no longer a reason to worry that you will one day acquire a disease that runs in your family (like cancer, for instance). And you won't have to dread getting older because of the "inevitable" degenerative diseases that could plague you as you age.

When you finally realize that **disease is nothing more than a condition that occurs when your body is oxygen deficient at the cellular level!** (and therefore an ideal habitat for disease microorganisms, viruses and pathogens) -- you don't have to be scared of it anymore.

Even if you receive the diagnosis that you have an incurable -- or even fatal -- disease, you can rest in the knowledge that the disease is simply your body's way of telling you that your cells are oxygen deficient. And oxygen deficiency is a temporary situation that can be corrected -- if you know how!

When you own [The One-Minute Cure: The Secret to Healing Virtually All Diseases](#), you'll have the perfect remedy that will enable you to not only flood your bloodstream with oxygen, but also deliver the oxygen to your cells and tissues so that disease can never breed in your body.

Your investment in the book is **less than the price you'd pay for a single flu shot** at a doctor's office (which costs \$35 to \$45 these days) -- but the priceless knowledge you'll gain from it can protect you and your family not just from the flu, but from virtually all diseases!

"Compelling evidence of a veritable cure-all..."

"One-Minute Cure contains thoroughly researched material that indeed offers compelling evidence of a veritable cure-all for all diseases. Unlike other self-proclaimed 'cures' promoted by others in the name of profiteering, the author clearly has no other agenda than to bring this hope of healing to every man, woman and child who's in need of it." -- Cheryl Jeter, Alternative Frontier Newsletter

"Health Insurance" for 1½ Cents a Day?

The simple therapy described in [The One-Minute Cure: The Secret to Healing Virtually All Diseases](#) is based on a natural oxygenating substance that is not available in health food stores or drug stores, but it's fairly easy to obtain -- if you know where to look. (On [page 77](#), I show you how to find plenty of sources.)

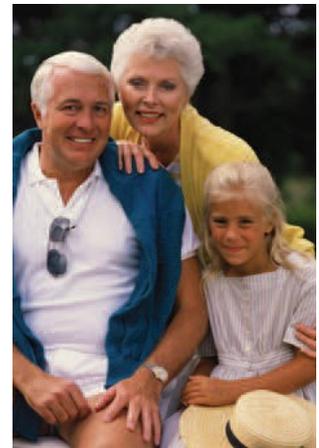

Interestingly enough, many of the world's well-known springs, such as those in Lourdes, France, and the waters of the long-living people of Hunza, which are known for their miraculous healing and age-reversing qualities, have been found to have high levels of this substance. It may well be the reason for the numerous health benefits derived from those springs.

This natural substance costs only 1½ cents a day to administer. At \$5.48 a year, that makes it **the least expensive health insurance you could ever find!** Not to mention the most effective method for preventing and curing virtually all diseases! Many of the practitioners of this simple therapy believe that this could potentially solve the health care crisis in America.

The best part about this therapy is that it can be self-administered at home in less than 1 minute -- and when done correctly, it creates an oxygen-rich environment in your body where disease can neither survive nor thrive. It can also stop disease dead in its tracks quickly, if disease has already manifested.

When you consider the simplicity of this therapy, its extremely low cost, ease of use, as well as its scientifically proven effectiveness in preventing and curing disease without adverse effects -- you begin to see why it's such a threat to the trillion-dollar pharmaceutical and health care industries.

You also begin to realize that the individuals, enterprises, cartels and agencies whose incomes are affected by the dissemination of this information will do everything in their power to force this book out of circulation. Since they can't put a patent on the natural oxygenating substance that cures virtually all diseases, they may resort to the usual schemes of suppression -- including media manipulation and economic incentives for members of federal agencies and even Congress.

Don't be locked out of your only opportunity to learn the one-minute cure. [Get the book while you still can.](#) Give a copy to everyone you care about ... to someone who's presently battling disease ... and to those who don't have health insurance -- as soon as possible. There isn't a person on earth who cannot benefit from this information. You will make a tremendous difference in someone's life by giving them this book -- or you might even save their life! [Click here to see [quantity discounts.](#)]

Now, the only decision you need to make is this: Which of the following would you rather entrust your

healing (and the healing of your loved ones) to? (Check one.)

- Pharmaceutical drugs that alleviate only the symptoms and the pain of diseases, but don't cure (and often harm)
- Elaborate, expensive and often invasive treatments and procedures offered by organized medicine
- A simple, low-cost therapy based on a natural oxygenating substance that is easy and painless to use at home -- and which is scientifically proven to prevent and cure virtually all diseases without adverse effects

For your sake, I hope you'll make the right decision in partnership with your doctor or a qualified health care professional.

Here's wishing you a life filled with vibrant health and freedom from disease!

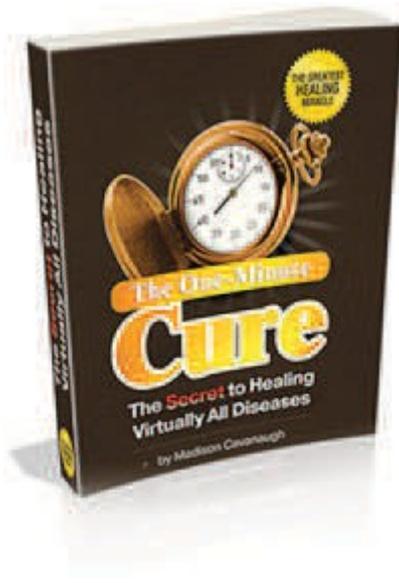

Madison Cavanaugh
