

Europe and the world are harmonizing on what is a fair and professional curriculum and education for those people seeing patients. Most have agreed that over 750 hours for a course is the minimum needed to provide professional and safe education. Now we have spent over 35 million dollars on over 50 movies, hundreds of educational and entertaining videos, hundreds of medical articles and research papers, and now over 80 ISBN certified medical textbooks. As professor emeritus of the IMUNE division of the University of Timisoara, I have put together this incredible 12 month course with over 200 hours of medical training in bio-resonance as biofeedback, neurophysiology, NLP, CPR, CPT payment, Anatomy and Physiology, comparative religion, Physical Education, Cardiology, Endocrinology, Psychology, Stress Reduction, Hypnosis, Nutrition, Acupuncture, Body Work Massage, Herbology, and much more. All of this course is designed to help you do drugless therapy on you and your family.
