THE BUSH ADMINISTRATION NEGOTIATES WITH DRUG COMPANIES

WE DEMAND TEN BILLION DOLLARS FOR OUR MEDICATIONS, AND NOT A PENNY LESS!

WE'LL OFFER TWENTY TRILLION DOLLARS AND NOT A PENNY MORE.

Bush sells America to the Drug Companies,
But What if SYNthetics Do NOT Work??
Bush signs Medicare Prescription Drug, Improvement, and Modernization Act and sells all of American and her citizens as slaves to the SINthetic drug and Medical Cartel

Yes it is true that the USA people owe over 20 trillion to the Drug companies as a liability of future drug development and sales. But this is assuming that the SINthetics are compatible. Actually SYNthetic drugs all have side effects, they lead to dependency and they offer few real cures but placation.

[Image of US Debt Clock showing various asset and liability figures]
The SINthetic Cemical Medical Cartel trullly Own America and all the People are their Slaves

This post of PRESCRIPTION DRUG LIABILITY has since been removed from the debt clock. (As it was a bit of too much truth and quite scary too much truth.) But as we see the American people owe more to the drug companies than the national debt. But what if these SINthetic drugs are not as needed as believed. What if a SINthetic anything is an insult to the body and causes more disease than they cure? What if????
Could it be that a Synthetic (SINThetic) anything is an insult to the body? Well here is a complete well documented proof.

SYNTHETIC IS SYNTHETIC

Pharmacology Fact: To Use a SYNTHETIC anything is an Insult to the Body

As we shift from Natural Drugs to SINthetic Drugs the death rate from Drugs increases.

Autism on the rise
Number of Mothers exposed to SINthetic Drugs - Chemicals During Gestation

Autism is caused by exposure to SINthetic chemicals during pregnancy, the evidence is unarguable.

Medical EXPOSE

http://medicalexpose.org/
1. The Synthetic drug companies do not know how to properly place the electrons around the atoms in making a drug. Nature uses QED via Photosynthesis to put some of the electrons into high energy quantum states. This is how we get energy and life.

2. The Synthetic Drug companies use antiquated outdated reductionism philosophy to assemble and test their drugs. The Fractal Complexity of Nature with it's incredible complexity must be revered rather than ignored. The height of IGNORANCE is to ignore nature. An IGNORANCE that makes money.

3. There is no study known that ever shows a synthetic drug completely equivalent to its natural counterpart. The reductionism studies only measure the required variables. They DO NOT measure side effects. Side effects are observed and often only observed years or decades later. The laws and the FDA protect them.

4. Side Effects dominate and proliferate the Synthetic Drug scene. Look at the Physician Drug Reference and see that all drugs have a list often a long list of side effects. This is not natural. Almost Every year over a hundred drugs are removed from the market because they are hurting people. It’s just a matter of time before the hurtful side effects are seen.

5. Our society has now learned conclusively that synthetic foods are incompatible with health. We have now rejected all synthetics and we know that the finest quality comes from the natural. It is the next step of simple human consciousness and thought to see clearly that synthetic drugs are incompatible with the human body.
When will we figure out the dangers of the \underline{SIN}thetic chemicals and their effects on all of biology?

The Synthetic (SINthetic) companies want to deprive you of any choice in food and medicine. We must fight for our right to choose and to speak.
What if we do over value the Synthetic drugs and they cause more disease later than they help?

What if most surgeries are unneeded waste and harmful?

Then everything we do is wrong, and we need to seriously look at Health Care and rethink what we are doing.
