Battle of the Milennia: David Desi vs. Goliaths
by Heather Swanson

There's a battle outside your door, shaking your house. The battle cry has reached your ears; it's raging in them. Only this is between the big guy and the little guy, and you don't think he has a chance. Or are you already getting prepared to live under the big guy for the rest of your life?

We all remember the story of David and Goliath. Well, today, it's not just one Goliath, it's a host of THE GOLIATHS that freely roam the earth victimizing the human race all in the name of greed and money.

So, about now, you are thinking: This is a big fairy tale, right? Let's meet our modern-day corporate Goliaths:

1) **Big Sugar.** Don't tell me you don't eat it. Dig your teeth into this white delusion sugar weakens the immune system and causes obesity. Over consumption of sugar is linked to lethal health problems and terminal illnesses such as diabetes and heart disease and it happens to be one of America's top money makers.

2) **Big Tobacco.** One in every five deaths in the United States is smoking related. Need we say more? It's legal, socially acceptable, and though a consumable drug (right?) The FDA happens not to be responsible for it.

3) **The FDA.** A kind of Igor, Frankenstein's assistant, for these Goliaths. A polyspermic agency, which has risen to its Goliath stature by consuming billions of dollars fed to it by pharmaceutical, big sugar, and other bribes. The FDA protects big sugar, big pharmaceuticals, and big tobacco more than it protects the American people.

4) **The Music Industry.** Think the death of Woodstock and the birth of MTV. Opposing, independent ideas, free creativity and a host of concepts related to freedom of expression, music has become a bloody battle for sales and power for this race of Mega-Poptarts. Its all about hype and nothing about talent.

5) **The Pharmaceutical Industry.** A multi-billion dollar business, the backbone of current allopathic medicinal practice, a leading cause of death in the USA and a killer of over one million Americans yearly.

6) **Hollywood.** One consumable that needs no introduction. In America, 99% of homes have at least one television set. In 2004, top studios totaled revenues of $7.4 billion from world box-office sales, $20.9 billion from world video sales, and $17.7 billion from world television licensing. Hollywood is a media monopoly with no room for protest or true idealism.

Now, meet David... I mean, Desi. Poet, musician, and healer Desiré Duboulet is currently fighting a 5-way battle armed only with her special superpower, clarity of mind, and the SCI-O - a biofeedback machine Desire patented that caught the FDA's attention because it doesn't match their "regular" clients. It's chemical free and doesn't need the FDA to market it because people buy it because it works.

In 2002, 785 died from falling over furniture to date, no one has died due to use of the SCI-O. So, why don't they go investigate furniture manufacturers?

With her independent media company Change the World Productions, Desire has been fighting the propaganda that has monopolized multimedia for generations. If you take a trillion dollars and stack them up, they would reach to the moon and back. Well, these trillion dollar industrial Goliaths are pitting themselves against one, solitary individual who has stood up and showed that there is a different way -- a better, more noble path to the future betterment of this planet. After all, it isn't an accident that her company is called Change the World Productions. It's Desire Duboulet's fate.

Take a stand today behind truth and justice: Join Desi in the fight against these malformed modern-day Goliaths that now terrorise our lives.
